It is seen that the area of Kansas is nineteen thousand square miles greater than that of all New England, New York, and New Jersey; and that the area of Nebraska is intuly five thousand miles greater than that of all the non slaveholding states except California. Oregon is nearly equal in extent to all New England, New York, Pennsylvania, Ohio, and Indiana. It is possible that New Mexico and Mesilia will be embraced in one territorial organisation by Congress at the bresent acession, containing 285,900 square miles—exceeding all New England, New York, Pennsylvania, Ohio, Indiana, and Illinois. Washington exceeds in extent all New England and New York.
